| Q.6 | Rice, a versatile and inexpensive source of carbohydrate, is a critical component <br> of diet worldwide. Climate change, causing extreme weather, poses a threat to <br> sustained availability of rice. Scientists are working on developing Green Super <br> Rice (GSR), which is resilient under extreme weather conditions yet gives higher <br> yields sustainably. <br> Which one of the following is the CORRECT logical inference based on the <br> information given in the above passage? |
| ---: | :--- |
| (A) | GSR is an alternative to regular rice, but it grows only in an extreme weather |
| (B) | GSR may be used in future in response to adverse effects of climate change |
| (C) | GSR grows in an extreme weather, but the quantity of produce is lesser than <br> regular rice |
| (D) | Regular rice will continue to provide good yields even in extreme weather |

| Q. 7 | A game consists of spinning an arrow around a stationary disk as shown below. <br> When the arrow comes to rest, there are eight equally likely outcomes. It could <br> come to rest in any one of the sectors numbered $1,2,3,4,5,6,7$ or 8 as shown. <br> Two such disks are used in a game where their arrows are independently spun. <br> What is the probability that the sum of the numbers on the resulting sectors upon <br> spinning the two disks is equal to 8 after the arrows come to rest? |

| Q. 8 | Consider the following inequalities. <br> (i) $\quad 3 p-q<4$ <br> (ii) $\quad 3 q-p<12$ <br> Which one of the following expressions below satisfies the above two <br> inequalities? |
| :--- | :--- |
| (A) | $p+q<8$ |
| (B) | $p+q=8$ |
| (C) | $8 \leq p+q<16$ |
| (D) | $p+q \geq 16$ |

| Q.9 | Given below are three statements and four conclusions drawn based on the <br> statements. <br> Statement 1: Some engineers are writers. <br> Statement 2: No writer is an actor. <br> Statement 3: All actors are engineers. |
| :--- | :--- |
|  | Conclusion I: Some writers are engineers. <br> Conclusion III: No actor is a writer. <br> Conclusion IV: Some actors are writers. <br> Which one of the following options can be logically inferred? |
| (A) | Only conclusion I is correct |
| (B) | Only conclusion II and conclusion III are correct |
| (D) | Onlor conclusion III or conclusion IV is correct |
