Right from the earliest time, human beings looked up and saw birds flying. They always wished that they too could fly like birds. Many inventions and discoveries and experiments, went on for many years, as people tried to make machines that could fly like birds. Birds zip through the air easily with the help of wings, which have a stream-lined shape. The wings are curved on the bottom. This special shape helps the bird to take off easily from the ground. Once the bird takes off, the ends of the wings act like propellers and rudders.

Kiran Bedi, India's first woman police officer was posted to the notorious Tihar Jail as Inspector General (Prisons). With her intrinsic personality, indomitable spirit and commitment to work, she brought in many reforms which has, literally converted Tihar Jail into Tihar Ashram. One string of reforms introduced by her in Tihar has infused a new life into the jail inmates. It is for this special service and reform at the Tihar Jail that she won in 1994 Asia's most prestigious award from the Ramon Magsaysay Foundation.
