SECTION C- HIGHER ORDER SKILLS

The bird is in white against the yellow background which is contrasted with the brownish-black feathers of its folded wings. An isolated figure of this bird shown on its perch in rigid profile is centrally positioned in the composition. Black markings all over the wings suggest that it is in the likeness of the pet of the ruler. The expression of cruelty in its eyes is an item of great astonishment to those who have seen it. The sharp beak and round vigilant eye are painted in shades of deep yellow ochre. A patch of light blue marks the feather on the back of its neck. A thin string is tied around the neck and hangs loosely to the ground.
