**Note:** In questions numbered from 1 to 20, a question is followed by data in the form of two statements labelled as (I) and (II). You must decide whether the data given in the statements are sufficient to answer the questions. Using the data make an appropriate choice from (1) to (4) as per the following guidelines:

- Mark choice (1) if the statement (I) alone is sufficient to answer the question.
- Mark choice (2) if the statement (II) alone is sufficient to answer the question.
- Mark choice (3) if both the statements (I) and (II) are sufficient to answer the question but neither statement alone is not sufficient.
- Mark choice (4) if both the statements (I) and (II) together are not sufficient to answer the question and additional data are required.

- نوٹ: سوالات 1 تا 20 میں ہر سوال دو بیانات (I) اور (II) معطیات (معلومات) پر مشتمل ہے۔ آپ کو طے کرنا ہے کہ بیانات میں دیے گئے معطیات (معلومات) سوالات کے جوابات دینے کے لیے کافی ہیں۔
- ہدایات کے مطابق معطیات کا استعمال کرتے ہوئے (1) تا (4) سے مناسب جواب کا انتخاب کیجئے۔
- اگر صرف بیان (I) سوال کا جواب دینے کے لیے کافی ہے تو (1) نشان زد کیجئے۔
  - اگر صرف بیان (II) سوال کا جواب دینے کے لیے کافی ہے تو (2) نشان زد کیجئے۔
  - اگر دونوں بیانات (I) اور (II) سوال کا جواب دینے کے لیے کافی ہیں، لیکن دونوں میں سے کوئی ایک تنہا جواب دینے کے لئے کافی نہ ہو تو (3) نشان زد کیجئے۔
  - اگر دونوں بیانات (I) اور (II) مل کر سوال کا جواب دینے کے لئے کافی نہ ہوں، مزید اضافی معلومات درکار ہو تو (4) کو نشان زد کیجئے۔

In the English alphabet, each vowel is coded to its next second vowel cyclically i.e., *U* is coded as *E*, *O* is coded as *A* ... and each consonant is coded to its second right consonant cyclically. i.e., *Z* is coded as *C*, *X* is coded to *Z*, *Y* is coded to *B* etc. Using this coding procedure, answer the following questions from 56-60.

انگریزی حروف تہجی میں ہر حروف علت (Vowel) کو اس کے فوری بعد آنے والے دوسرے حروف علت سے کوڈ کیا گیا ہے جیسے *U* کو *E* سے کوڈ کیا گیا ہے، *O* کو *A* سے کوڈ کیا گیا ہے، اور ہر Consonant کو اس کے فوری بعد آنے والے دوسرے Consonant سے کوڈ کیا گیا ہے جیسے کہ *Z* کو *C* سے، *X* کو *Z* سے اور *Y* کو *B* سے کوڈ کیا گیا ہے وغیرہ۔۔۔ اس کوڈنگ طریقہ کار کو استعمال کرتے ہوئے، سوالات 56 تا 60 کے جوابات دیجئے۔

SECTION - C : COMMUNICATION ABILITY – Comprehension Passage-1

What is freedom? It is a difficult question to answer categorically. Does it mean absolute liberty to do as one pleases? Complete non-restraint to pursue any fancy that strikes one? Is such a free existence possible at all for a human being? Freedom is, indeed, a nebulous concept, laying itself open to several interpretations, even conflicting ones.

There are champions of freedom who vehemently oppose any form of social control. Thoreau at least allows the need of some government---"the best government is the least government"--but there are others who denounce any sort of organisation at all. But given the imperfect nature of human beings, surely, such freedom would degenerate into anarchy and finally to the survival of the fittest in the sense of brute power? It would result in the tyranny of the weak by the strong; It would mean freedom for the strong and enslavement of the weak.

But let there be not a semblance of breach of peace even after all of us have been arrested. We have resolved to utilize all our resources in the pursuit of an exclusively nonviolent struggle. Let no one commit a wrong in anger. This is my hope and prayer. I wish these words of mine reached every nook and corner of the land. My task shall be done if I perish and so do my comrades. It will then be for the Working Committee of the Congress to show you the way and it will be up to you to follow its lead. So long as I have reached Jalalpur, let nothing be done in contravention to the authority vested in me by the Congress. But once I am arrested, the whole responsibility shifts to the Congress. No one who believes in non-violence, as a creed, need, therefore, sit still. My compact with the Congress ends as soon as I am arrested. In that case, wherever possible, civil disobedience of salt should be started. These laws can be violated in three ways. It is an offence to manufacture salt wherever there are facilities for doing so. The possession and sale of contraband salt, which includes natural salt or salt earth, is also an offence. The purchasers of such salt will be equally guilty. To carry away the natural salt deposits on the seashore is likewise violation of law. So is the hawking of such salt. In short, you may choose any one or all of these devices to break the salt monopoly.

The first thought that comes to my mind. It is not that India was never an independent country. The point is that she once lost the independence she had. Will she (lose) it a second time? It is this thought which makes me most anxious for the future. What perturbs me greatly is the fact that not only India has once before lost her independence, but she lost it by the infidelity and treachery of some of her own people. Will history repeat itself? It is this thought which fills me with anxiety. This anxiety is deepened by the realization of the fact that in addition to our old enemies in the form of castes and creeds. India would be a democratic country in the sense that would have a government of the people, by the people and for the people. The same thought comes to my mind. What would happen to her democratic constitution. It is not that India did not know what... democracy (is). Will she (lose) it a second time? I do not know. But it is quite possible in a country like India – where democracy from its long disuse must be regarded as something quite new – there is (a) danger of democracy giving place to dictatorship.
