OR

Explain the blunders committed by the three batsmen in their excitement to score the run of victory.

XI. 43. Read the following passage carefully and answer the questions given below :

$1 \times 4 = 4 \ (2 \times 2)$

The most important thing is that we should have freedom of thought. This is not as easy as it sounds, for everyone likes to have this freedom for himself, but is not ready to give it to others when they express different opinions. This is particularly the case when the differences of opinion arise on such important matters as religion or politics. But if we refuse to let other people hold their opinions on these matters, and specially if we try to force them to accept ours, progress is impossible. If everyone went on thinking the same things as his ancestors thought, progress would come to an end because, as the Buddha said, "What a man thinks he becomes". So if we think exactly what our forefathers thought, we shall remain in the condition in which they were. Our thought depends a good deal upon what we read and what we talk about. Therefore, if we want to think new thoughts, we must try to study all sides of the topic that comes before us, and not be content only with what we read in newspapers or what others say.

Questions :

a) When is progress impossible ?

b) How should our thoughts be formed ?

XII. 44. Write an essay of about 18-20 sentences on any *one* of the following topics :

$1 \times 5 = 5$

  a) Educating girls empowers women.

  b) The high cost of Global Warming.

XIII. 45. Imagine you are Manasa / Manohar of Government High School, Kolar.   5
