9. A private company is known for its efficiency, transparency and employee welfare. The company though owned by a private individual has a cooperative character where employees feel a sense of ownership. The company employs nearly 700 personnel and they have voluntarily decided not to form a union.

One day suddenly in the morning, about 40 men belonging to a political party gate-crashed into the factory demanding jobs in the factory. They threatened the management and employees, and also used foul language. The employees feel demoralized. It was clear that those people who gate-crashed wanted to be on the payroll of the company as well as continue as the volunteers/members of the party.
The company maintains high standards in integrity and does not extend favours to civil administration that also includes law enforcement agency. Such incidents occur in public sector also.

(a) Assume you are the CEO of the company. What would you do to diffuse the volatile situation on the date of gate-crashing with the violent mob sitting inside the company premises?

(b) What could be the long-term solution to the issue discussed in the case?

(c) Every solution/action that you suggest will have a positive and a negative impact on you (as CEO), the employees and the performance of the employees. Analyze the consequences of each of your suggested actions.

You are the Sarpanch of a Panchayat. There is a primary school run by the government in your area. Midday meals are provided to the children attending the school. The Headmaster has now appointed a new cook in the school to prepare the meals. However, when it is found that the cook is from Dalit community, almost half of the children belonging to higher castes are not allowed to take meals by their parents. Consequently the attendance in the school falls sharply. This could result in the possibility of discontinuation of midday meal scheme, thereafter of teaching staff and subsequent closing down the school.

(a) Discuss some feasible strategies to overcome the conflict and to create right ambience.

(b) What should be the responsibilities of different social segments and agencies to create positive social ambience for accepting such changes?

12. There is a disaster-prone State having frequent landslides, forest fires, cloudbursts, flash floods and earthquakes, etc. Some of these are seasonal and often unpredictable. The magnitude of the disaster is always unanticipated. During one of
the seasons, a cloudburst caused devastating floods and landslides leading to high casualties. There was major damage to infrastructure like roads, bridges and power generating units. This led to more than 100000 pilgrims, tourists and other locals trapped across different routes and locations. The people trapped in your area of responsibility included senior citizens, patients in hospitals, women and children, hikers, tourists, ruling party's regional president along with his family, additional chief secretary of the neighbouring State and prisoners in jail.

As a civil services officer of the State, what would be the order in which you would rescue these people and why? Give justifications. (200 words)
You are heading a district administration in a particular department. Your senior officer calls you from the State Headquarters and tells you that a plot in Rampur village is to have a building constructed on it for a school. A visit is scheduled during which he will visit the site along with the chief engineer and the senior architect. He wants you to check out all the papers relating to it and to ensure that the visit is properly arranged. You examine the file which relates to the period before you joined the department. The land was acquired from the local Panchayat at a nominal cost and the papers show that clearance certificates are available from the two of the three authorities who have to certify the site's suitability. There is no certification by the architect available on file. You decide to visit Rampur to ensure that all is in order as stated on file. When you visit Rampur, you find that the plot under reference is part of Thakurgarh Fort and that the walls, ramparts, etc., are running across it. The fort is well away from the main village, therefore a school here will be a serious inconvenience for the children. However, the area near the village has potential to expand into a larger residential area. The development charges on the existing plot, at the fort, will be very high and the question of heritage site has not been addressed. Moreover, the Sarpanch, at the time of acquisition of the land, was a relative of your predecessor. The whole transaction appears to have been done with some vested interest.

(a) List the likely vested interests of the concerned parties.

(b) Some of the options for action available to you are listed below. Discuss the merits and demerits of each of the options:

(i) You can await the visit of the superior officer and let him take a decision.

(ii) You can seek his advice in writing or on phone.

(iii) You can consult your predecessor/colleagues, etc., and then decide what to do.

(iv) You can find out if any alternate plot can be got in exchange and then send a comprehensive written report.

Can you suggest any other option with proper justification?

(250 words) 25
You are recently posted as district development officer of a district. Shortly thereafter you found that there is considerable tension in the rural areas of your district on the issue of sending girls to schools.

The elders of the village feel that many problems have come up because girls are being educated and they are stepping out of the safe environment of the household. They are of the view that the girls should be quickly married off with minimum education. The girls are also competing for jobs after education, which have traditionally remained in boys’ exclusive domain, adding to unemployment amongst male population.

The younger generation feels that in the present era, girls should have equal opportunities for education and employment, and other means of livelihood. The entire locality is divided between the elders and the younger lot and further sub-divided between sexes in both generations. You come to know that in Panchayat or in other local bodies or even in busy crossroads, the issue is being acrimoniously debated.
One day you are informed that an unpleasant incident has taken place. Some girls were molested, when they were en route to schools. The incident led to clashes between several groups and a law and order problem has arisen. The elders after heated discussion have taken a joint decision not to allow girls to go to school and to socially boycott all such families, which do not follow their dictate.

(a) What steps would you take to ensure girls’ safety without disrupting their education?

(b) How would you manage and mould patriarchic attitude of the village elders to ensure harmony in the inter-generational relations?
